

Dear Parent:

Our classes will have a guest speaker from AWARE (Abstaining, Waiting, And Respecting Each other) who will be talking to students about goal setting, making healthy choices, relationships and reserving physical closeness (sexual activity) for marriage/life-long relationship. The possible results from engaging in sexual activity will be discussed in class including minimal information about HIV which the state requires in 5th grade. At the elementary level, this presentation focuses on character and friendship. All AWARE presentations are age-appropriate. Please sign below to acknowledge that you have read this and will allow your student _____ to participate in this presentation. If you would like to view the curriculum or have any questions, please contact Life Options at (509) 882-1889. Thank you!
