

## **WHY CHRISTIAN SEXUALITY?**

Christian Sexuality was created with you in mind. Questions about sex, sexuality, and gender have become the most pressing ethical questions facing the church today, and this generation is especially swimming in the deep end of these topics.

Christian Sexuality is a comprehensive, relational, narrative-based video curriculum that youth leaders, mentors, and parents can use to disciple high-school age youth in a Christ-centered vision for sex, sexuality, and gender. It's made up of 25 interviews, including stories of those who experience sexual brokenness and sexual flourishing, expert commentaries about the Bible, our bodies and brains, and culture.

## **FEATURES**

Christian Sexuality has created 12 youth videos meant to engage youth where they are at. It also includes 12 mentor videos meant to prepare for each discussion. No topic is left out.
